## JODHPUR RAN-O-THON

The Table was Chartered and like any new floor tabler, I was naive about the tabling world and the culture. But only through meeting new tablers from the Area and doing a mega fundraiser like Ran-o-thon I could truly understand the impact we are making in society. We are not only creating schools for the underprivileged but also connecting the society to the cause. And when the complete city is dripped in the colour of your event that works as a catalyst for a sleeping city to rise and have a plethora of similar events, you can be sure that you are on the right path.

**Only when you agree to take up the responsibility you realise the learning it brings along with it. My year as a Table Chairman was perhaps one of the most important years in tabling. It equipped me with a deeper understanding of the word team and responsibility. It also enabled me to take up other roles in the Area and give my complete dedication to that responsibility.**

**Maiden 2 classroom project by JRT 273. Only by doing and working with leaders like Deepak Bhansali and Hussain Mustaffa you understand the importance of branding. I firmly believe that no efforts go in vain and if you can make slightest of difference to someones thinking your work is done. When I was handed over the responsibility of Area Gogreen Convener, the message was clear from then Limitless Area Chairman Abhinav Wadhwa that there needs to be consistent presence but uniqueness in the message that should move people towards environmental friendly living. I realised the potential and impact of daily flyers when tablers from all across the country and ASPA region started appreciating the content and sending out their suggestions & recommendations. Sunday specials were also a big hit, they were sleazy, quirky but hey whatever rocks your boat!

People might argue that flyers don't make a difference, but the real results was seen when the Area started taking Gogreen as a serious initiative and now we see, RTI Park, RTI forest, regular plantation drives by each table and Plantation along with drip irrigation at FTE schools as part of Area and National initiatives.

Area Projects Recognition pin, signifies the strength of team work and solid footing needed to create wonders that Area 12 does with its projects.

Area Projects Tshirt was a concept which was introduced by me to create purpose for the Project Conveners and Chairman of the table. The tricolour stands out in the crowd and the years theme motivates them to do much more.

Taking up the role of Area Projects Convener for Area 12 is a matter of pride and it comes with a lot of responsibility & a demand to travel for each bhoomi poojan and inauguration. Travel is another thing I love, so it was a relief for me, meeting new friends and seeing these marvels that we create at different places. The most moving experience was always interacting with the students and the staff. Their eyes full of emotions and gratitude, makes one realize how deep the impact of Freedom through Education is.

It is a matter of great pride to be the Area Secretary Treasurer of a dynamic Area like ours. It has been a memorable experience for me to showcase the working and achievements of Area 12 to the world. With all the activities happening in the Area it certainly keeps you on your toes, but I can't thank all my fellow table Secretaries and Treasurers for their support throughout the year. Team efforts and collaboration brings out the best of the group. Thank you all from the bottom of my heart for all the support.

To have a single plaque with all the quarter recognition was my idea to keep the team motivated for each quarter. Also it becomes a memorabilia for their tabling journey.

The Plaque made the receiver proud of his achievement and also kept pushing him for the next pin of the Quarter.

## Value Additions for Floor Tabler

### ACTION PLAN 02

- 01** Non AEX Fellowship Event
- 02** Short & Long term LAPD programmes for the whole family
- 03** Intercity & Inter table events & joint fellowships
- 04** Pan India Level Fellowship Activity @ Area

Floor Tabler is “Supreme”. It is time to bring the floor tabler to the center stage, not just for their involvement in the tabling activities but also for a regular supply of leaders for the Area and Nationals. There needs to be clearer communication to the floor tablers about the recent developments at Area and Nationals, to enable them to participate or adapt to what other tables are doing.

As RTI is a family organisation we need to create more events around the involvement & development of each family member. A pure fellowship event for the floor tablers and a National level fellowship event seems like a good opportunity to give enough reasons to the floor tabler to travel to different tabling centers in the Area.

Corona and lock down has been challenging but we came out with flying colours with various virtual events taking place in RTI, from fellowships, competitions, bhoomi poojans, inaugurations. But we have all missed the physical business meets and socials, fellowship drives and heading to the bar for the night.

Sooner the situation is going to get restored and it is going to be more challenging to bring out the tablers out of their comfort zone and travel for various events. We need to keep meeting in small groups for fork n knife, board games, coffee meet at each other's home and offices to keep the spirit of tabling "fellowship" alive. It is also going to be of utmost importance to create more reasons for tablers to start travelling once we have normalcy.

# ROAD TO RIGHTY

## "A FIST HAS MORE POWER THAN A FINGER"

All tables are doing tremendous activities individually and some in collaboration with other tables, the need of the hour is to join hands and make a bigger impact and even louder noise. The step forward should be all of us marching together in a similar direction rather than sprinting alone in different directions.

# ROAD TO RIGHTY

The poster features the Round Table India logo in the top left corner. The candidate's name and title are displayed in orange and white text at the top center. A circular portrait of the candidate is in the top right. The main title 'ACTION PLAN 05' is in pink, and the subtitle 'Value Additions for AEX Members' is in white. Five numbered points are listed in colored boxes: 01 (red), 02 (orange), 03 (purple), 04 (green), and 05 (blue).

**LMF TR. AANKITH MISHRRA**  
YOUR CANDIDATE FOR THE POST OF  
AREA VICE CHAIRMAN (2020-21), AREA XII

**ACTION PLAN 05**  
Value Additions for AEX Members

- 01** | Making tabling cost effective
- 02** | Swipe FD amount to be used for other initiatives
- 03** | One online AEX
- 04** | Systematic LAPD programs
- 05** | Visiting Tabler Group for Networking

AEX board is the face of the Area and to each other; face of different tables. Having worked on various positions, I understand the advantages and challenges each position holds. We need to extend enough support and tools for them to deliver more efficiently while fulfilling all of their personal and professional commitments.

As the Area Projects Convener, I travelled to each and every FTE event and missed on attending any event of my daughter's school that now can be taken care of through partial virtual attendance. The value quotient needs to be increased in tabling for the AEX members to better utilise their fixed variables, "time" & "money".

## RIPPLE EFFECT OF OUR ACTIONS

Each activity in different facets of tabling creates a domino/ripple effect. Efforts put in one facet benefits us on various fronts. One fundraiser is a mix of publicity & community service/projects. We publicise the event and connect the cause with the people and whatever money we raise we use for the betterment of society.

What I have understood through tabling is that all efforts add value, to the cause, to the movement, to the team and to each individual. We need to connect these dots and work in harmony to achieve much more with efforts from each member of RTI.

This not only gives us a simpler approach of doing things but also harvest better results in the long run.

# TABLING JOURNEY

## GOLDEN SERGEANT'S BAND:

Me and Nandesh did the table sargenting act dressed as Asaram Bapu and Narayan Sai. It was a laugh riot and we made each and every attendee dance and ring the BABA ji ka Ghanta. We also received the Golden Seargent's Band at the AREA AGM at jaipur for the same.

When the name Aankith Mishra comes to my mind the memories of Junior Run-a-thon, the stand up comedy show and the maiden FTE project of 273 immediately flashes up !!! Yes the Jedi Chairman Aankith did it all and that to when the table was just one year old, needless to say these events added immensely to the glory of the Jedi Year, but it also speaks a lot about his ability, compassion and leadership.

We have always heard that strong mind and determination can move mountains and it was the strong determination of Aankith along with his distinctive style of working that has always yielded results in whichever role he has adopted over the years. He has truly lived by the motto of Adopt, Adapt and Improve.

The world is your playground and we are the Champions! These are the words from the inspirational speech of our Jedi Area Chairman & ASPA floor tabler of 2016-17 Deepak Bhansali, which he delivered at Ranakpur TEXT.

DBsa as he is fondly called by us JRTians, the name later picked up in the Area & Nationals has been a great influencer to a newly formed JRT 273. He was there for the inauguration and in true tabling fashion booked the 8 couples from JRT for the last joint AREA 5 AGM at Udaipur.

I am certainly glad I attended that event and could see the way Area 5 parties, DBsa all the time with his wireless walky talking taking rounds of the venue and making sure everything is in order. We had hot dinner served at 4:30 am with Udaipur tablers still partying with us.

What I learned working with DBsa is the importance of appreciation. And the importance of planning and execution till the very end of the event. DBsa was one party animal who used to party all night, had his breakfast and drove back to Udiapur for work the whole day. He is one guy who never leaves an opportunity to have a good time.

His ingenious approach was unique and I was highly impressed when I saw him putting Shilpa bindi to all the LC members at the World Meet, Estonia, bringing a smile to their face.

Go green is one facet that is not given it's due. Tr. Aankith as Area Go green Convener took up a different approach of motivating the Area not just to plant trees but also to adapt to greener ways of sustainable living. He backed it up with incredibly designed motivational flyers, which were consistently shared each day throughout the year.

I was glad to share them to various National groups and receive enormous appreciation for the effort. It was a very impactful & out of the box initiative & we are still observing its benefit with tables planting at strategic locations & improving carbon foot print. In my opinion he has been the best Go green Convener.

I wish him all the best for his future endeavours.

Captain Limitless our Punjabi puttar Abhinav Wadhwa (AWsa) left his mark in the tabling world with his charismatic personality and eye for detail. He only told me that Gogreen is neglected and this is the plan he wants me to follow. I created and approved the first batch of flyers with him and posted the very first one at a Villa at Goa on the 1st of July 2017 and assumed my role as the Area Gogreen Convener. I would have loved it if I could generate a Multi-level tree plantation drive as discussed with him.

Awsa is still revered as the man with the finer taste and has been of great help for various conveners for designing their theme and pins. His limitless shirt is still a rage not just in the Area but Nationals. Thank you for all the great learnings and fun times. Hoping to have another crazy night at Jaipur soon.

Mishraji, It has been a real pleasure knowing you and having you as a friend !

I have been looking at your progress from the time you became your table's chairman till now when you are the AST of our Area and the journey is full of some amazing achievements.

You were a stellar Chairman and you did some really amazing events and boy you really did it in your own style and really did take the entire table with you which is a sign of a good leader.

In the Limitless year you were an exceptional Go green convenor, the best I have ever seen in any Area or even Nationals ! A Flyer a Day ...!! It shows the determination and the zeal you have through which you made a simple post so meaningful !

The best year was the time when you were Area 12's APC, in the Transformer year and I have seen amazing transformation in you. I have seen you maturing and the way you alone handled the role, which usually requires 2 , was just out of the world. I was really lucky to have you in the team, thanks buddy !

And how can I forget your year as an AST, having been one, I know how tough it is, but the way you did it made it look so simple and easy ... hats off buddy , waiting to see your final report at the AAGM!

Just as it is said wine matures with age so have you in tabling ... wishing you all the best in all future endeavors, you will always find me next to you !

An amazing human being, who inspires you with his polite approach to things and few words of appreciation. That being said he is one hell of a poker player and although I don't like to gamble I have spent a good amount of time & money playing with him. What I earned in return is a friend for life.

Having Aankith as AST along with me during my year as Area Chairman was dream come true. His Out of the Box Approach & Creative Thinking made things extremely easy for me. Working with him alongside many events made me aware of his potential to grow as a leader.

I have seen him grow from being Table Vice Chairman to AST, and he has performed exceptionally well at all the roles and responsibilities that lay in front of him. As Go Green Convener, his daily flyers for 365 Days were unimaginable and captivating. As Area Projects Convener, his project handbook was adopted by tables across the country and was well-received by all. Furthermore, all secretaries can vouch for Aankith that he tried to simplify the lives of all the fellow office-bearers.

A go-getter and making things done differently defines him, I wish him all the best for all his future endeavours.

Nandesh and I started our journey into tabling together and I have not come across anyone who is capable of multitasking like him other than Tr. Varun Murdia, who perhaps has the next version of the software for multitasking. Nandesh created a team of doers in his tenure as the Table Chairman and moving forward has created leaders in the Area as Area Chairman. Even with the limitations caused due to Covid the Area has thrived in each and every facet.

His clear thinking has brought about necessary changes at the Nationals. He was a pillar of support during my Table Chairmanship, always there even when he was facing difficult roads in his personal life. Working with him as AST, I have had complete freedom to work the way I want and in my own style, I am sure many other Conveners would echo the same.

He took up the role of National Projects Convener and has been delivering from day one, setting up new payouts encouraging tables to take up more classrooms at the needy schools. Thank you Nandesh for all the support and guidance and all the best for the National Secretary (2021-22) nomination.
